Mr. Weisberg,

I just wanted to drop you a line and thank you for taking the time to talk with me on the phone last week. I'm also thankful that you've written "Case Open." It's a wonderful rebuttal to a disgraceful piece of trash by Mr. Posner. There seems to be no "new conclusive evedince" in "Case Closed", it's just a new spin by a crafty spin doctor. I think one of the easiest ways to show Mr. Posners ignorance is that he offers an "explanation" for all the coincidences. When one looks at the assassination of JFK and its aftermath, you have to ask yourself where does coincidence end and reality begin. Your work has been extreamly important in my research. With all the forces working against those seeking the truth, I believe that the pursuit of truth will only fail when we're stopped searching. I intend to search no matter how long the journey may be. I'll be in Washington from August 21 st to the 30th. I'm looking foward to doing some research at the NARC, and I'm looking foward to meeting you. Thank you again! Hope you're feeling better, you're in my prayers.

Hoping to meet with you soon,

Dan Beckmann
